The Australian Clean Energy Summit 2025 took place in Sydney in late-July with record attendance of more than 1,600 industry leaders and decision-makers coming together from across the sector.

Across two packed days, attendees heard from over 160 speakers and panellists including Ross Garnaut AC, NSW Energy Minister, the Hon. Penny Sharpe and AEMO's Daniel Westerman. 2025 Clean Energy Council Award winners from across six categories were celebrated for their excellence and impact at the sold out Gala Dinner. Check out this year's award winners as well as the incredible line-up of finalists [on our website](#).

Looking ahead, we look forward to welcoming the Western Australian Minister for Energy and Decarbonisation, the Hon. Amber-Jade Sanderson at our Perth Member Mixer in September. Find out more below. Hot on its heels will be the Queensland Clean Energy Summit featuring large-scale solar and storage, which will bring together leaders and technical experts from across the Sunshine State's renewable energy community and Australia's utility-scale solar and storage sectors for two days of thought-leadership in Brisbane. In October, All Energy Australia, the southern hemisphere's largest clean energy event, returns to Melbourne with more than 15,000 industry professionals expected to attend and over 500 speakers. Registrations have now opened for our ever-popular Women in Renewables Lunch; find out more below.

Don't miss [remaining partnership opportunities](#) at our events, which provide an unparalleled opportunity to showcase your brand, products and services to the who's who of the clean energy sector.

 **CLEAN ENERGY COUNCIL**

Hosted by
Jacobs Challenging today. Reinventing tomorrow.

The poster features a portrait of The Hon. Amber-Jade Sanderson on the right. The background is a light orange color with stylized illustrations of a wind turbine, a building, and a sun/moon. The text is in a clean, sans-serif font.

Hear from WA's Minister for Energy and Decarbonisation at the Perth Member Mixer

We're thrilled to announce that we will be joined by the Hon. Amber-Jade Sanderson MLA, Western Australia's Minister for Energy and Decarbonisation, at the Perth Member Mixer on Wednesday 10 September.

Minister Sanderson has led major reforms and held senior portfolios spanning health, mental health, environment, climate action and commerce. Appointed to her current role following the March state election, Minister Sanderson is steering WA's transition to net zero while developing new clean energy industries and building a highly skilled local workforce.

From the recently launched WA Residential Battery Scheme to new large-scale storage investments, offshore wind proposals and hydrogen developments, there's plenty to explore. Don't miss the chance to hear from the Minister and connect with industry peers.

Member Mixers are open to both Clean Energy Council members and non-members alike; we encourage you to share this invitation with anyone in your network who may be interested in attending. This event, proudly sponsored by Jacobs, will book fast.

Meet the plenary panellists for the Queensland Clean Energy Summit featuring large-scale solar and storage

Join industry leaders on 15–16 September in Brisbane for the Queensland Clean Energy Summit featuring large-scale solar and storage. Over two days, speakers will tackle the big questions and look to the opportunities facing Queensland's energy transition, including:

- The current state and future roadmap including the policy changes shaping 2025 and beyond
- Large-scale solar and storage developments
- Domestic and international market opportunities
- Powering Queensland's industrial growth • Regional voices and perspectives on the state's energy transition.

The event also features Networking Drinks and Summit Dinner where you can mingle with peers, project partners and sector leaders.

With less than a month to go, don't miss your chance to secure a spot at this must-attend event for decision-makers and technical experts from the Sunshine State's renewable energy community and Australia's utility-scale solar and storage sectors. View the program on our website.
